## SOMP Education Webinar Series “Opportunities & Challenges for Transition to eLearning”

Thank you to everyone who attended the inaugural SOMP Education Webinar in May 2020.

Our speaker for this month is Ms Angela Binder from the Institut für Bergbau, TU Clausthal. Once again, Angela is very well known to most of us in the SOMP community.

Angela is currently a PhD candidate at the Department of Underground Mining Methods and Machinery. She has been an active member of the SOMP Education Committee since 2017 and has successfully developed and implemented concepts with various digital tools in her classes.

We all look forward to hearing from Angela about how she keeps her virtual class engaged with her teaching.

**Topic:** Mine your lecture first – Approach for a quick transition towards digital education

**Date:** Thursday, 25 June 2020

**Time:** 0600 hrs (Mountain Day Time, N America); 0700 hrs (Colombia Time); 0800 hrs (Eastern Daylight Time, N America); 1400 hrs (Central European Summer Time); 2000 hrs (China Standard Time); 2200 hrs (Australian Eastern Standard Time).
